

SDRC COMMUNITY CORONAVIRUS AGREEMENT (AS OF JUNE 2021): GUESTS

These guidelines and recommendations are subject to change and will be revisited every 2 weeks until further notice. In this agreement, "Community" is understood to include all individuals who make regular use of shared spaces at the Center, including staff, volunteers, and guests.

Note: COVID-19 is very contagious. Although SDRC has listed the below preventative measures, it cannot guarantee that any visitor, volunteer, retreatant or employee will not be infected with COVID-19. Despite preventative measures, outcomes are often dependent on compliance from all people and the changing landscape and information we learn about this virus. Information and guidance about this novel virus changes rapidly; all measures to slow the spread of COVID-19 are subject to change immediately.

By completing and signing this form, we agree:

- To be prepared to present physical proof of COVID-19 vaccination(s) to SDRC staff upon arrival.
  - Any guest who is not able to present proof of vaccination upon request, or who received their final vaccine less than 14 days prior to arrival, will be asked to leave the program. No refund will be offered.
- To voluntarily withdraw from the program if experiencing any symptoms associated with COVID-19 within 5 days of the start of the program and/or if we are aware of having engaged in unprotected contact with a COVID-19 positive individual during the 14 days prior to the start of the program.
  - People with these symptoms may have COVID-19: Cough, Shortness of breath or difficulty breathing, Fever, Chills, Muscle pain, Sore throat, New loss of taste or smell.
  - Southern Dharma will waive our cancellation policy and provide a full refund of all fees paid; thank you for being honest and ethical in taking advantage of this option.
- To inform SDRC staff and begin wearing a mask immediately if we are experiencing any symptoms on site associated with COVID-19.
  - Guests may be asked to self-quarantine until they leave the property or standards for release from home isolation are met:
    - We have had no fever for at least 72 hours (that is three full days of no fever without the use of medicine that reduces fevers) AND
    - Other symptoms have improved (for example, when our cough or shortness of breath has improved) AND
    - At least 10 days have passed since our symptoms first appeared.
  - Note that SDRC staff have limited capacity to care for sick guests and that our preference is for symptomatic individuals to leave the campus as soon as it becomes practical to do so;
- To communicate with the staff if and when we feel that a change to the agreement should be considered, based on new information and/or new understanding.
